Other : Project Management, Web Development, Timeline Management ,Git version control , Team Leadership,Communication Skills , Fluency in English , Problem Solving Skills , Agile Methodologies , Team Collaboration

EDUCATION

Sri Lanka Institute of Information Technology

BSc.(HONS) Degree in Information Technology

Specializing in Information Technology, Year three Semester 1 (Reading), Faculty of Computing

Malabe, Sri Lanka

2022 – present

Galahitiyawa Central College

G.C.E. Advanced Level

Science for technology - A | Engineering Technology - B | Information and communication technology - S

Ganemulla, Sri Lanka

G.C.E. Ordinary Level

5 A's, 3 B's , C

Sinhala - A | Mathematics - A | English- B | Science - B

EXPERIENCE

Web Developer, UI Designer

DreamGen Labs

April 2024 - Present

dreamgenlabs.com

CERTIFICATIONS

- Front End Development - HTML,Great Learning(2024)
- Database Management System,Great Learning (2023)
- C Programming - Introduction, Alison - Empower Yourself (2023)
- Introduction to C++ Programming Language, Alison - Empower Yourself (2023)

PROJECTS

HarvestMaster

Associated with SLIIT, Mar 2024 - May 2024

Inventory management system

JavaScript, CSS, Java

- Developed a comprehensive inventory management system for Harvest Master, a web-based platform.
- Displayed various types of rice and respective rice products to buyers through an intuitive interface
- Implemented features allowing users to add, update, and delete items from the inventory.
- Generated detailed inventory reports for users.

E channeling web site

Associated with SLIIT - Aug 2023 - Oct 2023

Web Development Project

Java, CSS, HTML, JavaScript

- Organized application into four distinct user roles: unregistered users, registered users, medical professionals, and system administrators.
- Implemented CRUD operations for user information management, demonstrating adeptness in user data handling.
- Applied fundamental concepts such as Model-View-Controller (MVC) architecture and Object-Oriented Programming (OOP) principles

Bhoomi Online Land Sale System

May 2023-Jul 2023

Web Development Project

HTML, CSS, PHP, JavaScript, MySQL

- Developed a platform for buying land, focusing on user-friendly interfaces and seamless transactions.
- Designed and implemented database management using PHP for handling land listings, user accounts, and transactions.
- Enabled CRUD operations for property listings, allowing users to create, view, update, and delete purchases.
- Implemented secure authentication and authorization mechanisms to ensure data privacy and integrity.

To Do List

Task Management mobile app

Kotlin, Figma

- Developed a user-friendly digital workplace for task management.
- Implemented features to create, read, update, and delete tasks and notes with an intuitive and easy-to-navigate interface.
- Designed and integrated a priority scheme to rank tasks by increasing order of significance, enhancing users' ability to prioritize their workload effectively.
