UI / UX Designer   December 2024 - Present
S. P. Solutions   *sp-solutions.biz*

Web Developer, UI Designer - Part Time   January 2024 - December 2024
DreamGen Labs   *dreamgenlabs.com*

CERTIFICATIONS

• Front End Development - HTML,Great Learning(2024)

• Database Management System,Great Learning (2023)

• C Programming - Introduction, Alison - Empower Yourself (2023)

• Introduction to C++ Programming Language, Alison - Empower Yourself (2023)

PROJECTS

Faucet Gym
Fitness Websites with Stunning UI/UX Design
• Bold and energetic typography paired with vibrant yellow highlights to reflect the gym's energy.

• A clean layout for easy navigation, ensuring users can quickly find services like yoga, cardio, personal training, and group classes.

• Engaging CTAs like "Join Our Fitness Community" to encourage interaction.

• This project reflects my passion for UI/UX design and creating intuitive, visually striking interfaces that connect with users.

GAME OVER
Introducing GAME OVER – Your Ultimate Gaming Destination
• Epic Hero Section: High-impact visuals with a bold call-to-action (Play Now/Watch Trailer).

• Modern Aesthetic: A sleek, dark-themed UI tailored to enhance the gaming vibe.

• Newly Released Games: A dynamic section highlighting top-rated games like Elden Ring, Call of Duty, and Fortnite.

• Community Engagement: Dedicated subscription section for updates, pro tips, and exclusive offers.

Sri Lanka Cricket App
Experience all things Sri Lanka Cricket in one app
•Match Screen: Keep up with live scores, wickets, overs, and ball-by-ball commentary. Stay informed with player stats, match progress, and key moments in real-time.

•Matches: Stay updated on Sri Lanka's match schedules, timings, venues, and teams. Scoreboard: Track live scores, player stats, partnerships, and run rates in a sleek visual format..

• Player Details: Discover player profiles, stats, achievements, and career highlights of Sri Lanka's cricket stars.

HarvestMaster   Associated with SLIIT, Mar 2024 - May 2024
Inventory management system   *JavaScript, CSS, Java*
• Developed a comprehensive inventory management system for Harvest Master, a web-based platform.

• Displayed various types of rice and respective rice products to buyers through an intuitive interface

• Implemented features allowing users to add, update, and delete items from the inventory.

• Generated detailed inventory reports for users.

E channeling web site   Associated with SLIIT - Aug 2023 - Oct 2023
Web Development Project   *Java, CSS, HTML, JavaScript*
• Organized application into four distinct user roles: unregistered users, registered users, medical professionals, and system administrators.

• Implemented CRUD operations for user information management, demonstrating adeptness in user data handling.

• Applied fundamental concepts such as Model-View-Controller (MVC) architecture and Object-Oriented Programming (OOP) principles
